[Ajax](#), Ontario, became the first Canadian recipient of the [CompetitiveReady Seal](#) on Sept. 4.

Located near Toronto, the town of 117,632 has instituted several “best practice” measures to make life easier for their businesses. The auditors were particularly impressed with PriorityPath, a business-oriented process focused on setting approvals to the company’s timeline by mutual agreement.

Other features noted by CompetitiveReady evaluators include:

- Sites that are thoughtfully zoned and fully serviced.
- A rating of “very competitive” in sustainability.
- A planned community with clustered work areas and residences, connected by over 80 km of trails, with an active waterfront, and numerous parkways.
